## INFORMATION ABOUT TRANSPORTATION

### BETWEEN THE AIRPORT AND CITY

#### By Fast train

Arlanda Express ([www.arlandaexpress.com](http://www.arlandaexpress.com)). The train station is situated under terminals 2/3/4 and 5. Departures every 15 minutes, with a travelling time of 20 minutes to the Central Station. The fare is, one way, SEK 220 (approx. 23 euro).

To proceed to SIS from the Central Station, change to one of the underground trains going south, to the station "**Slussen**", then a 5-min walk takes you to SIS or the nearby hotels.

#### By Bus

Buses (<http://www.flygbussarna.se>) leave both the international and domestic terminals every 10 to 15 minutes and arrive at the City Terminal at **Klarabergsviadukten**, next to S

#### By Taxi

Ask for fixed price from **Arlanda airport**, and the fare should be around SEK 500 (approx. 50 euro) to Stockholm centre.

#### By Car

You approach the city by either the E20 or the E18 highway from the west, or the E4 from the north or south. Signs for downtown read "Centrum".

#### By Train

All trains arrive at Stockholm's Central Station (Vasagatan, in downtown Stockholm). From here, regular commuter trains serve the suburbs, and an underground walkway leads to the central underground station.

#### Bromma Airport
