Standarder får världen att fungera

SIS (Swedish Standards Institute) är en fristående ideell förening med medlemmar från både privat och offentlig sektor. Vi är en del av det europeiska och globala nätverk som utarbetar internationella standarder. Standarder är dokumenterad kunskap utvecklad av framstående aktörer inom industri, näringsliv och samhälle och befrämjar handel över gränser, bidrar till att processer och produkter blir säkrare samt effektiviserar din verksamhet.

Delta och påverka

Som medlem i SIS har du möjlighet att påverka framtida standarder inom ditt område på nationell, europeisk och global nivå. Du får samtidigt tillgång till tidig information om utvecklingen inom din bransch.

Ta del av det färdiga arbetet

Vi erbjuder våra kunder allt som rör standarder och deras tillämpning. Hos oss kan du köpa alla publikationer du behöver – allt från enskilda standarder, tekniska rapporter och standardpaket till handböcker och onlinetjänster. Genom vår webbtjänst e-nav får du tillgång till ett lättnavigerat bibliotek där alla standarder som är aktuella för ditt företag finns tillgängliga. Standarder och handböcker är källor till kunskap. Vi säljer dem.

Utveckla din kompetens och lyckas bättre i ditt arbete

Hos SIS kan du gå öppna eller företagsinterna utbildningar kring innehåll och tillämpning av standarder. Genom vår närhet till den internationella utvecklingen och ISO får du rätt kunskap i rätt tid, direkt från källan. Med vår kunskap om standarders möjligheter hjälper vi våra kunder att skapa verklig nytta och lönsamhet i sina verksamheter.

Vill du veta mer om SIS eller hur standarder kan effektivisera din verksamhet är du välkommen in på www.sis.se eller ta kontakt med oss på tel 08-555 523 00.

Standards make the world go round

SIS (Swedish Standards Institute) is an independent non-profit organisation with members from both the private and public sectors. We are part of the European and global network that draws up international standards. Standards consist of documented knowledge developed by prominent actors within the industry, business world and society. They promote cross-border trade, they help to make processes and products safer and they streamline your organisation.

Take part and have influence

As a member of SIS you will have the possibility to participate in standardization activities on national, European and global level. The membership in SIS will give you the opportunity to influence future standards and gain access to early stage information about developments within your field.

Get to know the finished work

We offer our customers everything in connection with standards and their application. You can purchase all the publications you need from us - everything from individual standards, technical reports and standard packages through to manuals and online services. Our web service e-nav gives you access to an easy-to-navigate library where all standards that are relevant to your company are available. Standards and manuals are sources of knowledge. We sell them.

Increase understanding and improve perception

With SIS you can undergo either shared or in-house training in the content and application of standards. Thanks to our proximity to international development and ISO you receive the right knowledge at the right time, direct from the source. With our knowledge about the potential of standards, we assist our customers in creating tangible benefit and profitability in their organisations.

If you want to know more about SIS, or how standards can streamline your organisation, please visit www.sis.se or contact us on phone +46 (0)8-555 523 00

Europastandarden EN 16679:2014 gäller som svensk standard. Detta dokument innehåller den officiella engelska versionen av EN 16679:2014.

The European Standard EN 16679:2014 has the status of a Swedish Standard. This document contains the official version of EN 16679:2014.

Packaging - Tamper verification features for medicinal product packaging

Emballage - Témoins d'effraction pour emballages de médicaments

Verpackung - Merkmale zur Überprüfung von Manipulationen an Arzneimittelverpackungen

This European Standard was approved by CEN on 8 November 2014.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Foreword

This document (EN 16679:2014) has been prepared by Technical Committee CEN/TC 261 "Packaging", the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by June 2015, and conflicting national standards shall be withdrawn at the latest by June 2015.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

According to the CEN-CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

Introduction

Directive 2011/62/EU [1], commonly referred to as the “Falsified Medicines Directive” (FMD), amending Directive 2001/83/EC [2], requires safety features for certain medicinal products to provide verification of the “authenticity and identification of individual packs”, and “a device allowing verification of whether the outer packaging has been tampered with”.

Directives are implemented into Member States' national legislation. This document is primarily aimed at supporting the implementation of tamper verification features to packaging for medicinal products in the European Union (EU) and European Economic Area (EEA).

1 Scope

This European Standard specifies requirements and provides guidance for the application, use and check of tamper verification features to the packaging of medicinal products.

NOTE The packaging of medicinal products placed on the market and incorporating tamper verification features in accordance with this European Standard meets the requirements of Directive 2001/83/EC as amended by Directive 2011/62/EU. Article 54(o) of the Directive stipulates, that on the outer packaging of certain medicinal products or, where there is no outer packaging, on the immediate packaging shall appear, among others, “a device allowing verification of whether the outer packaging has been tampered with”.

The principles in this European Standard can be applied in other countries and sectors, as appropriate.

2 Terms and definitions

For the purposes of this document, the following terms and definitions apply.

- 2.1**
dispensing person
person authorized or entitled to supply medicinal products to the public
- 2.2**
Falsified Medicines Directive
FMD
Directive 2011/62/EU
- 2.3**
finished product
authorized medicinal product which has undergone all stages of production including packaging in its final container as it is dispensed, sold or otherwise supplied
- 2.4**
immediate packaging
primary packaging
container or other form of packaging immediately in contact with the medicinal product
- Note 1 to entry: The term immediate packaging, also known as primary packaging, has been chosen in the context of this European Standard because it is contained in Directive 2001/83/EC.
- 2.5**
manufacturing authorization holder
natural or legal person or entity that is authorized for total or partial manufacture, and/or for the various processes of dividing up, packaging or presentation (in accordance with Directive 2001/83/EC, Article 40(2))
- Note 1 to entry: This includes replacement of safety and tamper verification features (in accordance with Directive 2001/83/EC, Article 47a(1)(b) as amended by Directive 2011/62/EU).
- 2.6**
marketing authorization holder
natural or legal person or entity responsible for placing the medicinal product on the market
- 2.7**
outer packaging
secondary packaging
packaging into which the immediate packaging is placed as it is dispensed or otherwise supplied
- Note 1 to entry: The term outer packaging, also known as secondary packaging, has been chosen in the context of this standard because it is contained in Directive 2001/83/EC.

2.8

tampering

unauthorized attempt to open the packaging

2.9

tamper verification feature

characteristic(s) allowing verification of whether the outer packaging of medicinal products or, where there is no outer packaging, the immediate packaging has been opened or tampered with

Note 1 to entry: Tamper verification “features” may be referred to as “devices”, see Directive 2001/83/EC, Article 54(o) as amended by Directive 2011/62/EU.

2.10

verification

confirmation, through the provision of objective evidence, that specified requirements have been fulfilled

[SOURCE: EN ISO 9000:2005, 3.8.4]

3 General requirements

3.1 Tamper verification features

Tamper verification features shall be applied to packaging of certain medicinal products as required in Directive 2001/83/EC as amended by Directive 2011/62/EU.

3.2 Purpose of tamper verification features

Tamper verification features should provide an indication that the outer packaging of a finished product has been opened or tampered with (i.e. indicating a possible adulteration or entry of falsified medicinal products into the legitimate supply chain). Tamper verification features limit the ability to replace the contents of genuine packs.

Tamper verification features are only one element of the safety features against falsification of the FMD and will not by themselves prevent falsification of medicinal products.

3.3 Application and use of tamper verification features

The application of tamper verification features shall not compromise the readability of statutory information. The statutory text on the packaging should remain readable after opening the pack.

Applying tamper verification features may increase the physical strength needed to open the packaging.

3.4 Check of tamper verification features

The tamper verification feature should enable a visual check for its presence and any evidence of tampering (see 4.2, 4.3, 4.4, 4.5, 4.6, 4.7, 4.8, 4.9 and 4.10 for details).

The immediate packaging of medicinal products may also provide tamper verification. This serves a different purpose, most significantly to prevent interference with the medicinal product itself and does not meet the tamper verification requirements of Directive 2001/83/EC as amended by Directive 2011/62/EU. However it also provides another level of protection against tampering but only in combination with additional measures as described.

Wholesalers, dispensing persons and other authorized persons may need access to information on the tamper verification features employed on particular products.

NOTE Other authorized persons include holders of a manufacturing authorization or customs authorities.
