Mechanical seals – Principal dimensions, designation and material codes

The European Standard EN 12756:2000 has the status of a Swedish Standard. This document contains the official English version of EN 12756:2000.

Swedish Standards corresponding to documents referred to in this Standard are listed in "Catalogue of Swedish Standards", issued by SIS. The Catalogue lists, with reference number and year of Swedish approval, International and European Standards approved as Swedish Standards as well as other Swedish Standards.

Pumpar – Mekaniska tätningar – Huvuddimensioner, beteckningar och materialkoder

Europastandarden EN 12756:2000 gäller som svensk standard. Detta dokument innehåller den officiella engelska versionen av EN 12756:2000.

Motsvarigheten och aktualiteten i svensk standard till de publikationer som omnämns i denna standard framgår av "Katalog över svensk standard", som ges ut av SIS. I katalogen redovisas internationella och europeiska standarder som fastställts som svenska standarder och övriga gällande svenska standarder.

ICS 21.140.00

Standarder kan beställas hos SIS Förlag AB som även lämnar allmänna upplysningar om svensk och utländsk standard.

English version

Mechanical seals - Principal dimensions, designation and material codes

Garnitures mécaniques d'étanchéité - Dimensions principales, désignation et codes matériaux

Gleitringdichtungen - Hauptmaße, Bezeichnung und Werkstoffschlüssel

This European Standard was approved by CEN on 8 November 1999.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 197 "Pumps", the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by June 2001, and conflicting national standards shall be withdrawn at the latest by June 2001.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

1 Scope

This European Standard defines the principal dimensions for the internal installation of single and multiple mechanical seals with (rotating) spring units into the pump sealing cavity according to ISO 3069 as minimum cavity dimensions as typical for centrifugal pumps in accordance with EN 22858 and EN 733. It also gives the seal designations and material codes to be used.

2 Normative references

This European Standard incorporates by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies.

EN 733, *End-suction centrifugal pumps, rating 10 bar with bearing bracket — Nominal duty point, main dimensions, designation system*

EN 22858, *End suction centrifugal pumps (rating 16 bar) — Designation, nominal duty point and dimensions (ISO 2858:1975)*

ISO 1382, *Rubber — Vocabulary Trilingual edition*

ISO 1629, *Rubbers and latices — Classification, symbols*

ISO 2768-1, *General tolerances — Part 1: Tolerances for linear and angular dimensions without individual tolerance indications*

ISO 3069, *End suction centrifugal pumps — Dimensions of cavities for mechanical seals and for softpacking*

ISO 5199, *Technical specifications for centrifugal pumps — Class II*

ISO 9905, *Technical specifications for centrifugal pumps — Class I*

ISO 9908, *Technical specifications for centrifugal pumps — Class III*
