Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 6537 was developed by Technical Committee ISO/TC 131, *Fluid power systems*, and was circulated to the member bodies in September 1981.

It has been approved by the member bodies of the following countries :

Australia	Hungary	South Africa, Rep. of
Austria	India	Sweden
Belgium	Ireland	Switzerland
Canada	Mexico	United Kingdom
China	Netherlands	USA
Egypt, Arab Rep. of	Norway	USSR
Finland	Poland	
Germany, F.R.	Romania	

The member bodies of the following countries expressed disapproval of the document on technical grounds :

France
Japan
