English Version

## Wood flooring - Sampling procedures for evaluation of conformity

Plancher en bois - Procédures d'échantillonnage pour l'évaluation de la conformité

Holzfußböden - Probenahme und Bewertung der Konformität

This European Standard was approved by CEN on 30 December 2005.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

## **Foreword**

This European Standard (EN 14762:2006) has been prepared by Technical Committee CEN/TC 175 “Round and sawn timber”, the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by August 2006, and conflicting national standards shall be withdrawn at the latest by August 2006.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

## EN 14762:2006 (E)

### 1 Scope

This European Standard defines the sampling procedures to be used for the evaluation of conformity in product standards for a batch of wood flooring elements at the time of first delivery of the product.

It applies separately to each of the following characteristics: moisture content, dimensions and appearance.

For the other characteristics, an evaluation procedure has to be defined case by case.

This European Standard applies to EN 13226, EN 13227, EN 13228, EN 13488, EN 13629 and EN 14761.

For EN 13489, only moisture and dimensions are concerned.

This European Standard does not apply to EN 13990.

### 2 Normative references

The following referenced documents are indispensable for the application of this European Standard. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 13756:2002, *Wood flooring — Terminology*

ISO 2859-1, *Sampling procedures for inspection by attributes — Part 1: Sampling schemes indexed by acceptance quality limit (AQL) for lot-by-lot inspection*

### 3 Terms and definitions

For the purpose of this European Standard, the terms and definitions given in EN 13756:2002 and the following apply.

#### 3.1

##### **batch**

limited amount of elements delivered in one occasion, which can be assembled together and where the elements are defined to be in accordance to requirements

#### 3.2

##### **batch size**

$N$

number of elements in a batch

#### 3.3

##### **sample**

elements taken from the same batch for evaluation of conformity

#### 3.4

##### **sample size**

$n$

number of elements in a sample

#### 3.5

##### **sampling element**

one of the elements in the sample
