**SS-EN ISO 4254-6:2009/AC:2010 (E)****1 Modification to the Foreword**

*Replace the 5<sup>th</sup>, 6<sup>th</sup> and 7<sup>th</sup> paragraphs with the three following ones:*

"This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of the Machinery Directive 2006/42/EC. It is intended to be used together with EN ISO 4254-1:2009, *Agricultural machinery — Safety — Part 1: General requirements (ISO 4254-1:2008)* and EN 15811:2009, *Agricultural machinery — Guards for moving parts of power transmission — Guard opening with tool (ISO/TS 28923:2007 modified)*.

For relationship with EU Directives, see informative Annex ZA and ZB, which are integral parts of this document.

This standard has been developed to support the Machinery Directive 2006/42/EC. However, other directives can apply to the sprayers such as:

- Pressure Equipment Directives for sprayers where the functioning depends on putting pressure on the spray tank or for sprayers with piping exceeding DN 200 or exceeding the product pressure DN x PS of 2000 for DN between 25 to 200;
- Electromagnetic Compatibility (EMC) Directive for sprayers including electronic functions."
