Compliance with national and EU regulations that apply to the establishment and provision of beauty salon services is the responsibility of the organization offering such services. Compliance with this European Standard does not ensure in itself compliance with national and EU regulations that may apply to this service.

This European Standard was drafted by beauty and wellness professionals. The services can be provided by beauty therapists related to the following NACE codes: 9602 (beauty treatments) and 9604 (body treatments).

An amendment is currently being prepared by CEN/TC 409 "Beauty Salon Services" to add further clarification of the requirements covering advanced beauty treatments included in sub-clause 4.2 of this European Standard.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

Introduction

The aim of this standard is to set out requirements and recommendations for good practice in professional beauty salon services where the safety and satisfaction of the client is important.

Some European countries make a distinction between wellness treatments and beauty treatments while other countries blend these principles. This European Standard applies to all of these services where they are provided by a beauty therapist.

SS-EN 17226:2019 (E)
